## Summary

As an interactive developer I believe in the power of working side-by-side with designers and information architects to build products that are innovative, beautiful, engaging, and highly functional. I'm seeking a creative and welcoming work place that aligns with these ideals.

## Professional Experience

### SENIOR UI/INTERACTIVE DEVELOPER, INTENTIONAL FUTURES

*Seattle, WA January 2015 –*

- Lead UI Developer on the relaunch of company website
- Led small group of designers and information architects using agile workflows
- Consulted on project proposals involving data visualization and annotation layers

### UI/INTERACTIVE DEVELOPER, STARBUCKS

*Seattle, WA March 2014 – Sept 2014*

- Improved UI Development practices
- Increased collaboration amongst the UI team of designers, information architects and UI developers
- Made collaborative design a priority through frequent working sessions amongst the UI team
- Redeveloped the consumer facing Starbucks web Styleguide
